July 1, 2020

Department of Public Works Committee

Called to order 18:00.

People present, Dave Quick, John Gritter, Theresa Stroud, Brian Johnson.

Conversation among the State of Michigan, the Village of Lawrence, the Lawrence Township Fire Chief and 305 Farms about how many, how configured, who will maintain and who is to pay for fire hydrants related to the 305 farms project in the industrial park. Ongoing.

Routine lead sampling in the Village returned two positive results. There is no known reason that these two test sites should return positive results. Investigation is underway. There is no known threat to the public and no public notification is needed at this time.

Brian is arranging to rent and borrow equipment and personnel for storm clean up. Brian has arranged for a processing site other than the Village dump as the dump has a limited capacity. Many private parties are interested in taking larger limbs and tree trunks to be used for firewood.

Meeting adjourned at 18:50.

Submitted,

John Gritter.
