Lower your Energy Bills
Increase Home Comfort
Get it all for FREE

Counties served:
Berrien, Cass,
Van Buren

What is Weatherization?

Fueled by the 1973 energy crisis, weatherization was created in 1976 to decrease energy needs in each household. Today, people across the U.S. benefit from this program by lower energy bills, and a more comfortable home.

What we assess:

- Furnace / Water heater
- Attic / Wall insulation
- How drafty the home is
- Indoor Air Quality
- Smoke / CO detectors
- Much More!

What we do:

Provided you qualify, we abide by strict guidelines that determine what the home needs most. While the budget is limited per household, we maximize the potential of that budget to reduce your energy bills and increase home comfort. No two homes are used the same way, therefore each home receives a unique work order designed to maximize the benefits of Weatherization.

Services MAY include:

- Insulation
- Air Sealing (for excessive drafts)
- LED Lights
- Furnace tune-up
- Smoke / CO detectors
- And MORE!!

Who are we?

Southwest Michigan Community Action Agency (SMCAA) utilizes grant funds to provide support to those in need.

Find out more by going to our website at **SMCAA.COM** Or calling **(269) 925-9077**

Do you qualify for Weatherization?
